

# Rittal – The System.

Faster – better – everywhere.

## Cutting Terminal CT: Precision in Every Cut

The Rittal Automation Systems (RAS) Cutting Terminal CT machines are designed to provide efficient, precise, and user-friendly length cutting for wiring ducts, cable duct covers, and support rails. Ideal for one-off and small-scale manufacturing, these machines help save time, minimize waste, and reduce costs. With two models available—the CT M and the hydraulically supported CT H—you can count on seamless, accurate cutting and enhanced production management.

### What's in It for You?

- **Streamline Production:** Achieve fast, precise, and reliable cutting to the exact size required
- **Cut Costs & Waste:** Minimize material wastage through automated order analysis and optimized cutting processes
- **Enhance Efficiency:** Save significant time compared to manual cutting with user-friendly, touchscreen operation
- **Monitor Production:** Gain planning and production confidence thanks to full data continuity when you pair this machine with RiPanel Processing Center

# Cutting Terminal CT: Precision in Every Cut

The CT M is a cost-effective solution that enables manual cutting of wiring ducts, cable duct covers, and support rails. In contrast, the CT H model combines manual cutting for wiring ducts and cable duct covers with hydraulically assisted cutting for support rails, offering enhanced functionality.

## Key Features:

- **Efficient Job Management:** RiPanel Processing Center streamlines order and machine management for seamless production
- **Integrated Hand Tools:** Enable burr-free cutting of wiring ducts, cable duct covers, and support rails with ease
- **Clean Operations:** Designed to reduce debris and eliminate dust
- **Automated Precision:** Features an automatic length stop for positioning workpieces with absolute accuracy
- **Smart Labeling:** Optional component labeling generates barcodes for precise placement using Eplan Smart Mounting for easy, error-free assembly

Cutting Terminal	CT M	CT H
Part Number	4050563	4050565
<b>Workable Material</b>		
Steel	x	x
Aluminum	x	x
Copper	x	x
Plastic	x	x
<b>Interfaces</b>		
Eplan Pro Panel/RiPanel	x	x
CSV Lists	x	x
<b>Support Area</b>		
Height (mm)	2230	1850
Width (mm)	4000	4000
Depth (mm)	673	673
Control Voltage (DC)	24	24
<b>Support Rail Type</b>		
C Rails 30/15	x	x
Tophat Rails NS 15	x	x
Tophat Rails NS 35/15	x	x
Tophat Rails NS 35/7.5	x	x
Busbar NLS-CU 3/10	x	x
<b>Wall Thickness &amp; Weight</b>		
Max Wall Thickness (mm)	2.5	2.5
Net Wight (kg)	270	270
